

Sehbaz Rafik

Frontend Developer

PERSONAL PROFILE

I am a developer who is keen and passionate about building web based applications and who has experience in a variety of languages and technologies. I am always looking to increase my skill set, with one of my greatest strengths is the ability to quickly learn and become proficient in technologies that are new to me. I am an active contributor to open source projects, and I am a member of the [LeicesterJS](#) meetup group.

SKILL AND TECHNOLOGIES

Frontend: — *JavaScript, HTML5, CSS3, BootStrap 4, CSS Grid, jQuery, EJS*

Framework: — *ReactJS, Gatsby, NodeJS, ExpressJS, NPM*

Database: — *MongoDB, MySQL*

Version Control: — *GitHub*

Tools: — *AdobeXD, Netlify, Heroku, Flaticon*

CURRENT AND RECENT PROJECTS:

Weather with top 5 headlines from TechCrunch

I wanted to play around ReactJS, so I made this simple project which fetch the weather of the entered location and not only it shows the current weather but also the top five news from an American online publisher TechCrunch. Openweathermap and techcrunch api are used to fetch the real time data. One of the projects I'm most proud of.

Sehbaz Portfolio

I wanted something fast and with good SEO for my portfolio, so a static website generator like Gatsby seemed like the best fit. I have made my portfolio site an open source so this may inspire to junior developer.
